Activity 1: Let's Share & Reflect!

Pick the following questions for further discussion:

- What if you dreamed of a new life, and it came to you? What if that new life led you to a new country, where no one spoke your language, where you felt alone and ignored?
- What if you had to make that new place your home?
- What are some challenges Yuyi and her son faced when coming to a new country?
- Why was the library so special to the mother in the story? What did they learn in this new place?
- Do you have a love for books? What are your favorite books?
- Imagine you are the one traveling to a new country. What would you bring with you? What items are so special to you that you would not want to leave behind? What objects would you bring as gifts?
